

Next Generation Cash Register

Technology is rapidly changing the landscape of retail payments so BemaCash was developed out of a need for a highly functional, easy to use and cost effective point-of-sale system to become the next generation cash register.

Simple and Intuitive Point-of-Sale Solution

Exponential growth in both technology and payments has changed the business process for merchants and what they expect from a point-of-sale system. BemaCash is providing solutions for these new expectations.

BemaCash Retail is designed with an intuitive user interface for fast transactions that will keep lines moving. Leveraging the cloud-based system, owners can keep track of sales and inventory in real-time, at anytime, from anywhere.

Automated Merchant Systems, Inc. is pleased to offer BemaCash, an innovative Point-of-Sale solution that runs on an Android tablet or Bematech's SB8010A Android All-in-One. BemaCash provides a diverse background in retail platforms, payment networks and mobility hardware.

The solutions provide a seamless customer experience and building tools that allow government agencies and businesses to adapt to their changing environments.

Streamline Your Business Operations

Thanks to cloud-based technology Bemacash allows you to manage your business from anywhere at anytime. Simply log into your business portal from any device with an internet connection to manage and track inventory, employees, vendors, purchase orders and so much more.

With Bemacash you'll know what's happening with your when you're not there giving you piece of mind that's priceless.

At AMS we are constantly exploring new technologies for merchants which has helped fuel substantial growth in our suite of solutions that includes Merchant Services, ACH/eCheck processing, Hosted IVR and a full service PCI Compliant Payment Gateway.

We consult with current and prospective clients to better understand their business environment and ensure that we're able to offer them the industry's leading PCI compliant electronic processing software programs for their organization.

To learn more about the Bemacash solution or to schedule a demo, please contact Public Sector Account Manager, Nancy Murphy at 407.331.5465.

Affordability

Traditional point-of-sale systems can cost tens of thousands of dollars and often have to be paid for up-front which can cause huge cash flow problems. In an effort to alleviate this burden, Bemacash offers a variety of subscription models ranging from monthly to yearly so you can decide what works best for you.

Available Hardware

PCI Compliance

Bemacash is compliant with PCI/P2PE standards by working with PCI certified hardware such as Pax payment terminals.

Flexibility

Bemacash can be deployed in a variety of environments including:

- Kiosks
- Gift Shops
- Restaurants
- Quick Service Restaurants (QSR)
- Food Trucks
- Retail Stores/Locations
